

## Curriculum Vitae Marco Bittelli

Ricercatore confermato AGR/02 AGRONOMIA E COLTIVAZIONI ERBACEE

2010-: Adjunct associate in research (Institute of Applied Physics, National Research Council, CNR, Florence).

2006-: Researcher (University of Bologna, Italy).

2003-2006: Adjunct Professor (University of Bologna, Italy).

2003: Adjunct scientist (Washington State University, USA).

2002: Post-doctoral scientist (Washington State University, USA).

2001: Visiting scientist (Kirchhoff Institute for Physics, Univ. of Heidelberg)

2001: Visiting scientist (Institute of Environmental Physics, Univ. of Heidelberg).

2001: Ph.D. in Soil Physics (Washington State University, USA).

1998: Master of Science in Soil Physics (Washington State University, USA).

1995: Degree in Agricultural Science (University of Bologna, Italy).

### TEACHING

1996-2001: Soil Physics, Pedology, Agricultural Systems. Department of Crop and Soil Sciences, Washington State University, Pullman, WA, (USA).

2003-2006: Modeling the soil-plant-atmosphere continuum, Numerical solutions of partial differential equations, Electromagnetic methods in environmental science. (University of Bologna).

2006-: Soil Physics (University of Bologna)

2006-: Coordinator of an International Master in Land and Water Conservation between the University of Bologna and Washington State University (USA).
